Community Impact (use any categories that apply)

City Goals: ECO-FOCUSED Minneapolis is an internationally recognized leader for a healthy environment and sustainable future strategic directions: use less energy, produce less waste

Background/Supporting Information Attached

Don Bailey developed a resource and energy benchmarking tool for the city of Minneapolis to issue reports for small to mid-sized businesses as set forth in the Environmental Assistance Grant agreement with The Minnesota Pollution Control Agency. The City seeks authorization to enter into a license agreement with Don Bailey to set up the tool and use it with businesses and non-profit organizations in Minneapolis. The program Mr. Bailey developed provides benchmarking data, resources use, and recommendations for energy efficiency.
